

LET'S GET XCITED!

Leverage the infinite possibilities
of our high-tech and know-how.

MANPOWER MEETS MACHINE POWER.

MS XTEC is your production service provider for short and medium production runs. We can provide you with perfectly made-to-measure production solutions irrespective of your sector.

You can depend upon our team: A team comprising a combination of highly qualified and experienced specialists as well as high-tech production systems that we can adapt to suit your specific requirements.

Technical facts:

- 5-axis milling operation
- Components for a cubic machining space measuring 800 x 800 x 800 mm
- Volumes: from 500 p.a.
- Load capacity: 0.5 – 50 kg
- Tolerance: 0.005 mm
- High standard of traceability and quality requirements
- State of the art cleaning, assembly, measuring (Zeiss) and finishing processes

„For our customers, we always go one step further. Always moving forward – and to some extent we also do that for ourselves because, quite simply, it is enjoyable always working with state-of-the-art technology”.

Bernhard Lehr (CEO)

We machine:

Aluminum and steel, castings (pressure die-casting, molding and sand casting) forgings and solid material

ALL-INCLUSIVE: COMPETENCIES TO PROFIT YOU.

From A to Z.

Our manufacturing expertise extends across all key production steps from development and machine optimization to the machining of metals and digital tools for inspection, transparency and traceability.

Harnessing all the benefits of digitalization.

Modern digitalized manufacturing affords an almost infinite range of possibilities. Working closely with you, we focus on the really important things.

These include:

- Master computer control
- Smart networking of all processes
- Status overview at all times
- Process data (relating to quality etc.) at all times in your desired format

The better way to machine metal.

We provide you with the perfect combination of expertise and high-tech to deliver optimum competitiveness.

Place your confidence in:

- Automated loading and machining cells
- 1 clamp setting, 5-axis and precise
- Reduction in complexity
- Great product flexibility and scalability
- More than 140 machining centers

Genuine traceability for every single component.

Nowadays, transparency in the value-added chain is more important than ever before – for manufacturers as well as customers. With MS XTEC, everything is seamless.

Benefit from:

- Integration of measuring cells in production
- Measuring cells are loaded via automated guided vehicles and robots
- Feedback of measuring results to the system
- Smart assurance of quality features
- Measurement in tandem with volume production
- Flexible special measurements – right around the clock

XCITING NEWS!

We will also be manufacturing for you in the USA, maintaining our usual standards of quality, reliability, and expertise. Consider this space reserved for your future parts, as we provide the following services:

- Sales
- Planning
- Production, boasting 1,600 square meters of production space
- Logistics

X advantages for you:

- Faster delivery in the Americas
- Better service thanks to greater local customer proximity
- Products „made in the USA“
- A new high-tech machine park
- Growth potential - for you and with you
- And much more

CHALLENGE ACCEPTED: PRESENT US WITH A PRODUCTION CHALLENGE – WE GUARANTEE AN EXCELLENT SOLUTION FOR YOU!

We look forward to hearing from you!
